| <p>Engineering Festival. 'Engineer your future'</p> <p>Regional event at Duxford Engineering Museum, near Cambridge</p> <p>Tuesday 18th October 2011 9.30 am - 3.00 pm</p> | <p>Engineering</p> <p>Design Technology</p> <p>Maths</p> <p>Science</p> <p>Careers & IAG Employability Skills</p> <p>WRL</p> | <p>Student and teacher engineering event. Organised in partnership with STEM Team East.</p> <p>Students:</p> <p>Join us at this regional event delivering the message of the importance and strength of engineering in the region and its place in future global development and impact around the world. This event is the first of its kind and will be a window on engineering, by engineers, for the engineers of the future. The day will have exhibits, talks and the chance for students to be an engineer as they engage in creative, problem solving activities that challenge whilst being enjoyable with defined successful outcomes. All activities will be led by engineers to show the enthusiasm that engineers have for their careers!</p> <p>Teachers:</p> <p>While students will be engaged in engineering activities, teachers will have the chance to attend a series of fascinating and informative presentations by employers. These will provide invaluable information about careers, apprenticeship and graduate opportunities. In addition, teachers will hear from engineering companies about their education link activities available for future school engagement. Companies include, Perkins, Marshall Aerospace, npower, BT...</p> | <p>£7 per student</p> <p>Free to teachers</p> | <p>Mark Bruhin - Beacon East</p> <p>07766 056330</p> <p>mbruhin@beacon-east.co.uk</p> |

| | | <p>and Medical education from primary schools to post-graduate level through a variety of initiatives, including their group of STEM Ambassadors. Napp aims to help engage young people with Science subjects and how they apply to the 'world of work'. ABPI is the pharmaceutical industry membership organisation supporting industry research and development. ABPI also works very hard to support schools and colleges with its own dedicated education team who have successfully developed numerous resources supporting the Science curriculum and Careers & IAG. This CPD event will cover many areas including:</p> <ul style="list-style-type: none"> • Update on the pharmaceuticals sector • ABPI (Association of the British Pharmaceutical Industry) • Company focus with Napp Pharmaceuticals • Careers in the pharmaceutical industry • Apprenticeship & Graduate opportunities in the pharmaceutical industry • Extensive 'behind the scenes' tour of Napp • Exciting new STEM activities with Napp and ABPI <p>For more information on Napp Pharmaceuticals go to www.napp.co.uk For more information on ABPI go to www.abpi.org.uk</p> | | |
| <p>Port of Felixstowe Engineering Careers & IAG and Curriculum Support Event</p> <p>Port of Felixstowe, Felixstowe Suffolk</p> <p>Thursday 17th November 2011 9.30 am - 3.00 pm</p> | <p>Engineering</p> <p>Design Technology</p> <p>Science</p> <p>Maths</p> <p>Business Studies</p> <p>Careers & IAG</p> <p>Employability Skills</p> | <p>The Port of Felixstowe is the UK's busiest container port and one of the largest in Europe. The port operates a dedicated container terminal which handles over 3 million TEUs (Twenty-foot Equivalent Units) a year. Over 40% of the UK's import and export trade passes through the Port of Felixstowe. The port plays a pivotal role in keeping UK trade moving and over 4,000 ships pass through its terminals each year. Approximately 35 shipping lines operate from Felixstowe, offering over 70 services, and covering some 365 ports around the world. Importantly, the port provides some of the deepest water close to the open sea of any European port.</p> <p>In partnership with Port of Felixstowe and Hutchison Ports (UK) Limited; this brand new FREE professional development event aims to upscale delegate's knowledge of the opportunities available at the port, with particular reference to supporting 14 - 19 Careers & IAG and curriculum. | <p>'Liquids Mean Life' Enterprise Skills Professional Development Event</p> <p>Working with the British Soft Drinks Association and Britvic Soft Drinks Limited</p> <p>Britvic Factory, Norwich</p> <p>Friday 18th November 2011 9.30 am - 3.00 pm</p> | <p>Enterprise</p> <p>WRL</p> <p>Business Studies</p> <p>Food Technology</p> <p>PSHE</p> <p>Citizenship</p> <p>Careers & IAG</p> <p>Employability</p> | <p>This FREE award winning professional development event invites teachers and Enterprise & WRL coordinators to visit Britvic's brand new 'Education Learning Zone' at their factory in Norwich. This event will allow delegates to gain invaluable resources to support the delivery of enterprise learning in schools; with particular reference to the 'liquid means life' KS 4 enterprise pack. This new resource pack aims to help deliver your enterprise requirements, either though whole school day or smaller classroom activities. These fun resources allow students to discuss and explore many areas including:</p> <ul style="list-style-type: none"> • Corporate Social Responsibility (CSR) • Sustainability • The environment • Safety and quality • Health and well-being • Choice and convenience | Free | <p>Mark Bruhin - Beacon East</p> <p>07766 056330</p> <p>mbruhin@beacon-east.co.uk</p> |

| Event / Venue / Date | Line of Learning | Summary of CPD event | Cost of event | Contact to book places on the event |
|---|---|--|---------------|--|
| | Skills | <p>This pack allows students to learn about the processes of being involved in producing a soft drink, appreciate the need for team work & compromise and discover some of the wide ranging careers available in the food and soft drinks sector. Working in teams comprising of production, buyers, technologists and marketers; students work towards the launch of a new soft drink. Choosing from a selection of drinks; they can then select whether they want to launch a 'green', 'value', 'fair-trade' or an 'organic' drink. Students will be encouraged as teams to appreciate the value of working together and compromising to achieve a shared objective.</p> <p>In addition to training on the pack; delegates will be taken on a fascinating 'behind the scenes' tour of the Britvic factory and their brand new 'Education Learning Zone'. This new centre has various activities for students and Britvic are really keen for schools to link into this free resource. Delegates will benefit from an early view of this new centre and learn how it will support institutions across the region.</p> <p>For more information on Britvic and their learning zones go to www.britviclearningzone.com</p> | | |
| <p>Logistics Sector Careers & IAG Event</p> <p>GIF Panalpina and ASCO Logistics in Great Yarmouth</p> <p>Tuesday 22nd November 2011 9.00 am - 2.30 pm</p> | Careers & IAG Employability Skills Business Studies Retail Engineering Environmental Studies WRL | <p>In partnership with GIF (Grampian International Freight), Panalpina and ASCO Logistics; this free CPD event is designed to update delegate's knowledge of skills and careers in the logistics sector. This is a huge growth area, particularly in the Great Yarmouth area.</p> <p>In 2004, Panalpina, one of the world's leading forwarding and logistics services providers, took over the Scottish freight forwarder GIF Ltd; including its base in Great Yarmouth. GIF, established in 1984, specialises in providing transportation and logistics solutions to the Oil & Gas industry. Their main focus is the United Kingdom, continental Europe as well as the traditional Oil & Gas markets in Africa, Central Asia, the Americas and the Far East. Grampian is considered one of the market leaders in the Oil & Gas sector. Similarly, ASCO Logistics specialise in supporting the Oil & Gas industry. ASCO operate across the globe and have a proud history in Great Yarmouth. Both organisations work hard to support local schools and colleges and are very keen to employ local young people. In addition to general updates on the logistics sector; there will be short presentations from the companies and a tour. There will also be informative sessions on recruitment, entry routes and apprenticeship options.</p> | Free | <p>Mark Bruhin - Beacon East</p> <p>07766 056330 mbruhin@beacon-east.co.uk</p> |

| | | <p>who are 'high flyers' with post-graduate qualifications. Finally, in addition to a 'behind the scenes' tour of QEHL there will be the chance to learn about the latest education link opportunities and how these may support your careers provision and a wide range of curriculum areas. This event will cover many areas including:</p> <ul style="list-style-type: none"> • Update on the QEHL Trust • Update on NHS Careers • Apprenticeship & Graduate opportunities at QEHL • 'Not just doctors and nurses'. Careers in estates, health informatics, catering and other key hospital support departments • Behind the scenes tour of QEHL highlighting support departments • Where next for schools and colleges? Latest education links with QEHL e.g. work experience <p>For more information on the Queen Elizabeth Hospital go to www.qehk.nhs.uk</p> | | |
| <p>BAA Stansted Airport Environmental Business Event</p> <p>Tuesday 6th December 2011</p> <p>10.00 am - 3.30 pm</p> | <p>Travel & Tourism</p> <p>Geography</p> <p>Environmental Studies</p> <p>Science</p> <p>Business Studies</p> <p>Careers & IAG</p> <p>Employability Skills</p> <p>WRL</p> | <p>In partnership with BAA and Stansted Employment & Skills Academy; this event is designed to continue helping teachers and advisers develop a more effective knowledge of business and industry in the east region, in this case the fascinating world of a large international airport and BAA's environmental approach to business. Stansted started life in 1942 as a USAAF bomber base in WW II and, due to the 1960's holiday expansion, grew to become known as London's third major airport. Today, Stansted's 41 airlines serve 160 destinations, with 23.4 million passengers passing through its doors each year. BAA is currently looking to expand to accommodate 35 million passengers per year.</p> <p>This exciting FREE CPD event will give delegates the rare opportunity to visit Stansted airport and learn about the BAA environmental approach to business. Environmental and sustainability standards are taken very seriously at Stansted. There have been considerable improvements made during the last decade across many areas; including noise, emissions, recycling and waste. BAA has endeavored to not only reduce emissions but enhance and preserve the wildlife habitats around the airport. The company also supports local</p> | Free | <p>Mark Bruhin - Beacon East</p> <p>07766 056330</p> <p>mbruhin@beacon-east.co.uk</p> |

| | | <p>community environmental projects through the BAA Communities Trust.</p> <p>This event will look at all these areas as well as BAA business diversity. In addition to 'land side' tours, there will be a final workshop highlighting the education links on offer at Stansted and the opportunities to link your institution with the Stansted Employment & Skills Academy. Under the leadership of a former local FE college manager, the academy is an exciting development in potential curriculum support. Staff at the academy are keen to work more with schools/colleges and this event will allow you to explore possible activities such as student visits, case studies and curriculum resources.</p> <p>For more information on BAA Stansted International airport go to www.stanstedairport.com For more information on Stansted Employment & Skills Academy go to www.stanstedairportacademy.com</p> | | |
| <p>Norfolk STEM NET Teacher Network Event</p> <p>Norwich Research Park</p> <p>Tuesday 28th February 2012 9.00 am - 3.30 pm</p> | <p>Science</p> <p>Careers & IAG</p> <p>Employability Skills</p> | <p>In partnership with STEM NET and UEA Outreach; this new FREE teacher networking event aims to update knowledge of science and research in Norfolk, focusing on Norwich Research Park (NRP). In addition to fascinating tours of the John Innes Centre and Institute of Food Research (IFR), there will be presentations on the latest cutting edge research taking place at various NRP organisations. There will be updates on the latest opportunities for young people, including free school curriculum support activities, work experience options and invaluable careers advice. Teachers and advisers will hear further presentations from STEM Net and have an opportunity to network with NRP staff and a range of STEM Ambassadors ready to support your schools and colleges.</p> <p>NRP has one of Europe's largest single-site concentrations of research in Health, Food and Environmental Sciences. NRP is ranked 4th after London, Cambridge and Oxford. NRP is a partnership between the University of East Anglia, the John Innes Centre, the Institute of Food Research, the Sainsbury Laboratory and the Norfolk and Norwich University Hospital. NRP has over 30 companies located either in the Norwich Bio-Incubator or in one or other of the member organisations. The NRP has an excellent international reputation for its research particularly in the areas of health, food, plant and microbial sciences, environmental sciences, computer and information</p> | Free | <p>Mark Bruhin - Beacon East</p> <p>07766 056330 mbruhin@beacon-east.co.uk</p> |

| <p>Marshall Aerospace Cambridge - Careers & Curriculum Support Event</p> <p>Tuesday 6th March 2012 9.00 pm - 3.00 pm</p> | <p>Engineering Design Technology Careers & IAG Employability Skills WRL</p> | <p>Back by popular demand, this FREE professional development event is designed to continue helping schools & colleges develop a more effective knowledge of business & industry in the east region; in this case the engineering, design and aviation sectors. The event will include an overview of the history and work undertaken by Marshalls. In addition, it will provide and insight into the opportunities open to young people entering the engineering & design sectors. Delegates will go on a fascinating and extensive tour of the Marshall Aerospace site and have an opportunity to explore future links supporting a range of engineering and technology curriculum areas.</p> <p>Marshall Aerospace, Cambridge, is the UK's leading independent aerospace contractor with a worldwide reputation for engineering excellence. Decades of experience in aircraft design, manufacture, maintenance, conversion, modification and logistic support are firmly backed up by a dedicated team of over 1,500 highly trained personnel and an exceptional range of facilities housed in 1.2 million square feet of hangar space. Based on its 800-acre site since 1937, Marshall Aerospace also operates as part of its own locally established and privately owned city airport.</p> <p>Marshalls has all the capabilities of an OEM, covering all aspects within military, commercial and corporate aircraft. Working within these three areas, the breadth of expertise and experience of Marshall Aerospace enables the company to work on a large variety of aircraft types and projects, whilst also remaining flexible to fulfil the requirements of any customer, at any time or location. Marshall Aerospace has a worldwide customer base and whilst much of the Company activity centres at its Cambridge base, in recent years Marshalls has continued to expand its operations and locations of</p> | <p>Free</p> | <p>Mark Bruhin - Beacon East</p> <p>07766 056330</p> <p>mbruhin@beacon-east.co.uk</p> |

| <p>Wood Green Animal Welfare Careers & IAG and Curriculum Support Event</p> <p>Wood Green Animal Shelters, Godmanchester near Huntingdon</p> <p>Tuesday 20th March 2012 9.00 am - 3.00 pm</p> | <p>Science</p> <p>Careers & IAG</p> <p>Employability Skills</p> <p>WRL</p> <p>PSHE</p> <p>Citizenship</p> | <p>Back again by popular demand, this CPD event will allow teachers and advisers to visit Wood Green and gain invaluable information for young people looking to work in the animal welfare sector. The event programme has been designed to highlight the wide skills required in this sector and the career options open to all students i.e. from those leaving school at 16 with GCSEs to those who are 'high flyers' with post-graduate qualifications in Veterinary Science. In addition, to updates on careers there will be information on the latest education link opportunities supporting curriculum areas such as Biology.</p> <p>Founded in 1924 by Louisa Snow, Wood Green Animal Shelters were set up to help alleviate the problem of abandoned and injured animals on the streets of London after the First World War. Since then the registered charity has grown into one of the largest animal welfare organisations in Europe taking in and re-homing over 5,000 animals a year.</p> <p>Wood Green has experienced some major changes in 2011. These include a rebranding programme reflecting the range of services to animal welfare they offer and the on-going building work of their new veterinary surgery and isolation kennels. Wood Green offers a wide diversity of jobs in animal welfare. This event will introduce delegates to these areas and the opportunities Wood Green offers to support students who wish to pursue a career in this sector e.g. work experience. Speakers from all aspects of the animal care team will lead delegates through interactive sessions followed by a tour of the Wood Green site demonstrating the facilities and services available to schools.</p> <p>The mission statement of the Wood Green charity is simple "To take in unwanted and lost animals, provide shelter and care, find secure and loving homes, provide advice, support and guidance for pet owners and increase the public's awareness of its responsibility towards animals in society."</p> <p>For further information on Wood Green go to www.woodgreen.org.uk</p> | Free | <p>Mark Bruhin - Beacon East</p> <p>07766 056330</p> <p>mbruhin@beacon-east.co.uk</p> |

|--|---|---|---------------|-------------------------------------|
| <p>Thursday 21st June 2012 9.00 am - 3.00 pm</p> | <p>Enterprise Careers & IAG Employability Skills</p> | <p>As part of their commitment to support schools; Royal Mail has produced an excellent curriculum-linked resource to raise awareness about the causes and impacts of our own carbon footprints. This new pack, aimed primarily at Key Stage 3 but with activities applicable to Key Stage 4, takes a straightforward, scientific look at climate change and the issues surrounding it. Pulling on resources from across the scientific and industrial communities; the pack brings together the most up to date research on the causes of climate change and solutions. All staff involved in teaching climate change, active citizenship or sustainable development as a cross-curricular theme, will find this day invaluable. The programme will include:</p> <ul style="list-style-type: none"> • Practical sessions introducing the ‘Climate Challenge Challenge’ resource pack with key facts, arguments and evidence in the changing climate debate • An opportunity to sample student activities with topical case studies, exploring solutions around global warming, carbon emissions and renewable energy sources in industry, transport and at home • Developing student’s independent enquiry skills across all subjects, consistent with Personal Learning and Thinking Skills • Steps being taken by Royal Mail, one of the largest employers in the UK, to become carbon neutral by 2015 • Learn about the business of Royal Mail, including a fascinating ‘behind the scenes’ tour of Norwich Mail Centre facilities • Learn about future education link activities with your local Royal Mail e.g. work experience, student visits, curriculum support... <p>This is a must for teachers looking for new resources on climate change and an industry case study to bring it all to life. Don’t miss out!</p> <p>For more information on Royal Mail go to www.royalmail.com</p> | | |

| <p>Institute Food Research Food Technology Event</p> <p>IFR, Norwich Research Park</p> <p>Wednesday 27th June 2012</p> <p>9.00 am - 1.00 pm</p> | <p>Food Technology</p> <p>Catering</p> <p>Applied Science</p> <p>Careers & IAG</p> <p>Employability Skills</p> <p>WRL</p> | <p>Created in 1986, the Institute of Food Research (IFR) is the world leading contributor to harnessing food for health and controlling food related diseases. IFR aims to meet the challenges of supplying safe, nutritious food that promotes healthy ageing now and in the future. IFR provides underpinning science for government and the food manufacturing industry. IFR strategy aims to understand the working of the intestinal tract, and how food-borne bacteria can cause human disease, and how the chemical and physical nature of our food influences health and can add to the food chain.</p> <p>This FREE event will allow teachers and advisers to learn more about IFR and explore where IFR can support your school or college. This event will include presentations and tours of the site, including IFR labs and unique residential food testing centre. This CPD session will cover many aspects of IFR work including:</p> <ul style="list-style-type: none"> • Food safety – including removal of disease in foods • Gastrointestinal research – understanding gut health and function • Nutrition, diet and health – diet and long term influences on health • Food innovation – food quality, hygiene and healthy diets • Fascinating ‘behind the scenes’ tours, including labs, residential human testing centre and robot gut! • Where next? Future support e.g. school visits, presentations, case studies, work experience... <p>The IFR outreach team are keen to improve school and college links through this event. It will be a great opportunity to start linking your institution to this large respected organisation to support the curriculum.</p> <p>For more information on IFR go to www.ifr.ac.uk</p> | Free | <p>Mark Bruhin - Beacon East</p> <p>07766 056330</p> <p>mbruhin@beacon-east.co.uk</p> |

| <p>9.00 am - 1.00 pm</p> | <p>Skills WRL</p> | <p>the UK's most environmentally efficient, state-of-the art brewing facility. Based in Southwold, Adnams is a regional brewer, pub owner, hotelier with a number of Cellar & Kitchen stores throughout East Anglia and London.</p> <p>The company is proud to do things differently and has developed a reputation for doing things right. Adnams aims to make a positive impact on local communities, respecting the environment that supports the brewery and makes it all possible. In support of Adnam's ethical credentials and modernisation, the company built an Eco-Distribution Centre in 2006. By 2010 Adnams launched Bio-Energy, an energy park with anaerobic digestion at its heart, a process where microbes break down food waste material to release energy. This is the first in the UK to use brewery and local food waste to produce renewable gas to supply the National Grid. This generates up to 4.8 million kilowatt-hours per year – enough to heat 235 family homes for a year, as well as providing gas for use as a vehicle fuel. Adnams uncompromising dedication to producing the best tasting beer in the most innovative and environmentally friendly way possible has resulted in it being awarded the title of 'Brewery of the Year 2011'. For more information on Adnams go to www.adnams.co.uk</p> <p>Adnams is eager to work more closely with schools and colleges. The company regards this event as a great opportunity to develop links further. This event will cover many areas including:</p> <ul style="list-style-type: none"> • Adnams business past, present and future... • The Science of Brewing at Adnams • Extensive tour of Brewery & Distillery • Reydon Eco-Distribution Centre & Anaerobic Digester Plant • Careers & recruitment at Adnams • Adnams & the community, including education link Opportunities | | |
